Datasheet

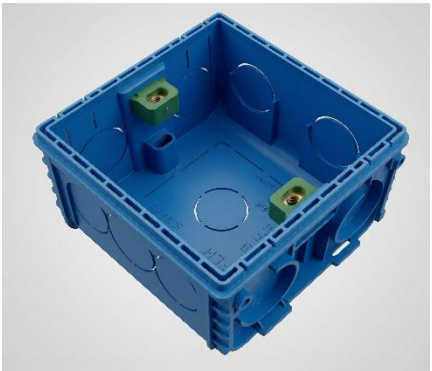

Blade
CC-BL-1

About

The Blade 4" wall panel is a sleek control solution for modern smart homes. It can replace traditional KNX push buttons while offering a clean, elegant design. Its intuitive touchscreen gives you a clear overview of your home, making it easy to control lighting, shading, climate, and scenes from one central interface.

Technical Specifications

Name	Blade
Product nr.	CC-BL-1
Description	Flush mounted wall panel
Panel size	86 x 86 x 39.5mm (with the back base)
Display	4" screen, 480 × 480 resolution, 2.5D full screen
CPU	Rockchip PX30 Quad core Cortex-A35
Memory	2GB
Storage	128 GB
OS	Android 11
Connectors	RJ45 Ethernet
Connectivity	Wi-Fi or Ethernet
Sensors	Proximity
